

Sarah Greene's
Graphic Design Portfolio
2021

Introduction

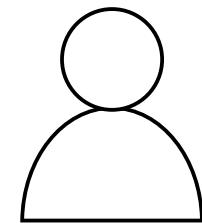

Hi! My name is Sarah Greene and I am a 20-year old graphic designer from Bradford, Ontario. I graduated in April 2021 from the three-year graphic design program at Georgian College with an advanced diploma. I enjoy creating layouts, motion graphics, and illustrations through the Adobe Suite and Procreate on the iPad.

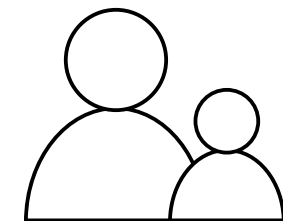

Over the past three years of college, I've worked through a variety of personal, school, and client projects, with my chosen favourites showcased within this portfolio. Of these projects, most of them have been created with Adobe Creative Suite, with many including realistic mock-ups as well.

JOIN FRIENDSHIP FORCE LAKE SIMCOE AND MAKE LIFELONG FRIENDSHIPS AND MEMORIES

Friendship Force International (FFI) is a non-profit cultural organization focused on promoting goodwill, understanding, cultural education and citizen diplomacy through home-stay journeys and personal friendships. There are over 350 clubs in over 60 countries, with 15,000+ members. We take pride in creating friendships all over the world across race, religion, language, age and gender.

Be an ambassador and represent our country, travel the world with club friends, make new friendships, stay in their homes, and see their country through their eyes. We also welcome global ambassadors here, host them in homes of club members and show them our corner of the world.

Instagram Advertisements

These were created for a fictional travel agency for Manitoba, Canada to increase tourism after COVID-19 has ended. They were created using InDesign and Photoshop. As this was a group project, the logo and body copy are not mine alone. The images were taken from a royalty free image site, and the mock-up was provided by my instructor and just the layout of the ads are mine.

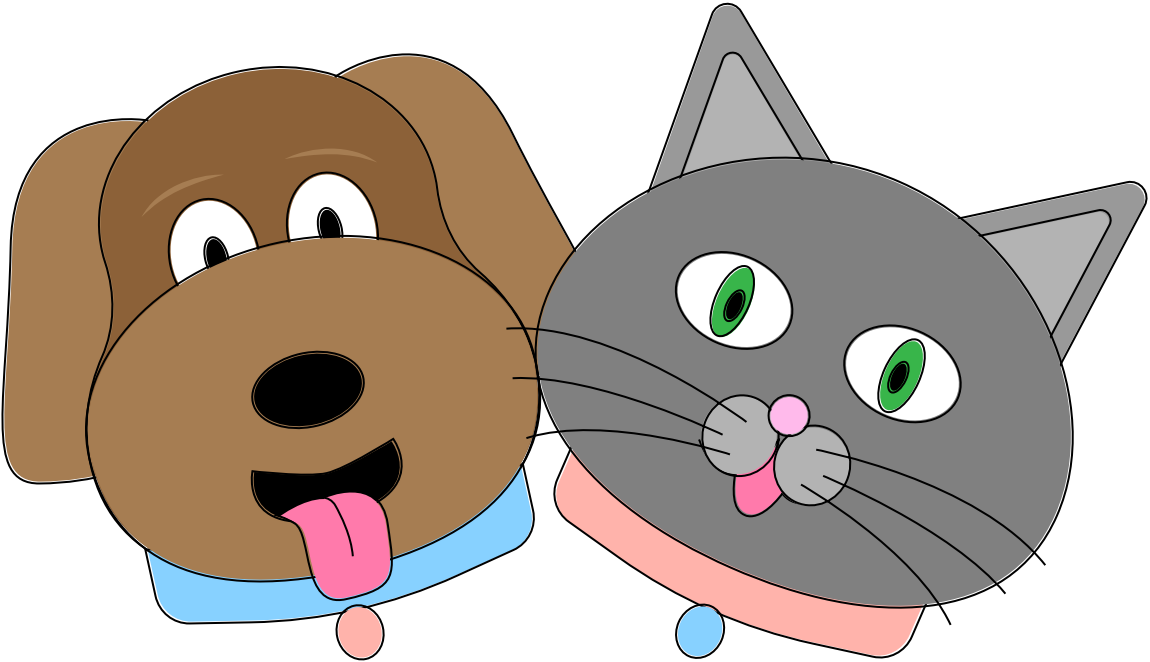

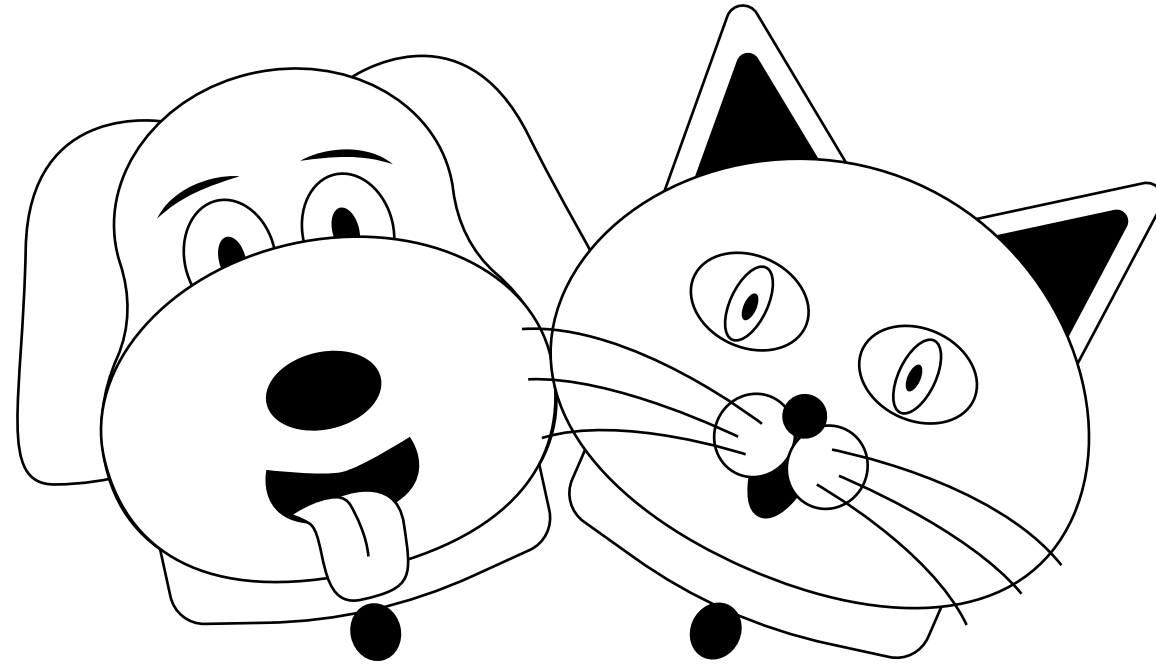

Animal Paradise

This is a logo created for a fictional animal rescue agency called Animal Paradise, a sanctuary and adoption center for sick and injured animals to be rehabilitated. Created using Adobe Illustrator, mock-ups in Adobe Photoshop. This is a remake of an earlier logo remade to look better and better represent the organization.

Wild Rescues

ANIMAL PARADISE

Animal Paradise is an Animal Rescue Sanctuary dedicated to providing the best of care and life to sick and injured animals both domestic and wild.

We take in any and all domestic rescues whether they are sick, injured or come from abusive or homeless situations. We nurse them back to health and get them comfortable around people again, in which they are then returned to their rightful owners, or put up for adoption.

Our wild rescues are those who are sick or have been injured and are unable to live in the wild. Our goal is to be able to get them well enough to be released in the wild, and if they are unable they stay here at our sanctuary where they will be safe and well taken care of.

Donations

100% of the donations we receive go straight to providing our rescues with the medicine, surgeries, physical therapies, disability aids, food, water, toys and other resources they need. Any little bit helps whether it's 0.01¢ or 100\$, it all makes it easier for us to provide our rescues with the care they need and get them back to their rightful homes.

ABOUT US

Who We Are

We are an animal sanctuary located in Bradford, Ontario, founded in 2019 by Sarah Greene. Since then we have worked with thousands of animals with the goal to heal and rehabilitate sick and injured animals of all kinds.

We are a non-profit organization and all of the money from adoptions and donations go 100% to dedicating top care to our rescues.

Our hundreds of volunteers and two dozen permanent staff work every day ensuring each and every animal gets the medical care, love, and any other necessities they need.

What We Do

We take in animals of both domestic and wild nature and bring them to our sanctuary to give them the care they desperately need. Some we find ourselves and others are brought in by members of the community.

We take in domestic animals from any situation, with any kind of injury or sickness. Some have come from loving owners who wish their pet to stay with us as they cannot afford their treatment, in which we give them right back to them once they are well again. Some come from abusive homes or are homeless in which we treat their illnesses/injuries, train them if needed, get them used to people again and once they are ready, will be available for adoption.

We also take in wild animals who were found either by us or members of the community. They come from many situations such as being abandoned by their pack, injuries from poaching or human error, and many others. Our goal is to heal and eventually release them back into their natural habitat. If they are unable to return to the wild we home them safely in our sanctuary with exact replicas of their habitats with acres of land.

Our Care

Our domestic animals include cats, dogs, birds, rabbits, ferrets, guinea pigs, horses, and many more. Each type of animal is kept in a large housing unit as well as separated spacious yards. Each animal receives all its necessary medical treatment and care as well as any regular care such as food, water, walks, playtime, baths and more. Housing units and yards are cleaned daily to ensure our animals have the best place possible to get well again.

Our wild animals include lions, wolves, leopards, snakes, squirrels, elephants and more. Each lives in a replicated habitat with acres of land and shelter. They too receive all necessary medical care and are attended to their basic needs every day. We ensure our wild animals DO NOT live in zoo-like enclosures to help them heal, be happy, and healthy.

Testimonials

"My elderly mothers cat Nibbler got suddenly sick and she was unable to afford treatment for her beloved cat. I brought Nibbler to Animal Paradise in Bradford and they immediately took him in. Nibbler returned 2 weeks later completely healthy, clean, and happy, and my mother was so thankful they did it at no charge. Thank you Animal Paradise, you truly saved my mothers best friend!"

~ Amanda

"I work at a safari in South Africa and came across a lion who was abandoned by its herd after being injured by a poacher, after countless searching I came across Animal Paradise. After a safe journey to Ontario, they took in Simba and brought him back to full health, and released him back to his herd here in South Africa. Their endless effort saved his life and was able to bring him back home."

~ Kwame

"While driving home from work one day, I came across a green snake laying still in the road, but I knew it was alive. I didn't have the heart to leave him there so I called Animal Paradise. They arrived very quickly and assured me they'd do everything they could. Weeks later I was curious about him so I visited the sanctuary and they informed me he was released back into the wild five days earlier. Their commitment to every animal astounded me and I was so glad I called them."

~ Micheal

OUR RESCUES

Domestic Rescues

Our rescues come from all states of life and we pride ourselves on giving animals the proper care and love they deserve. We provide each animal with the right medication, surgery, and daily care they need. Our ultimate goal is to be able to have every one of them happy and healthy enough to be able to go back or to their forever home.

Each adoption goes through an extensive background check, interview, and home test to ensure that our animals are going to the best home. Our goal is to be able to return animals to their rightful owners should they come to our sanctuary because they are sick, injured, or lost.

[Need a Rescue?](#)[Adopt a Rescue](#)

Wild Rescues

For each of our wild rescues we have the same goal, to be able to return them to their rightful place in nature. Trained professionals take care of their every need with that goal in mind. They live on acres of replicated habitat to make them feel at home and we provide safe, guided tours used to educate the public on wild animal rehabilitation with the animals best interest in mind.

Despite being out biggest goal, some wild animals are unable to return to the while as they may come to us at a young age and never adapt, or because their illness prevents them from living safely in the wild. In this case they stay with us having all of their needs taken care of every day.

About Volunteering

Join our team of hundreds of volunteers ranging from veterinarians/students, high school/college/university students (non-veterinarian related programs), retirees, trained wild animal specialists, and many more. Gain education and knowledge on dozens of animals and spend your time doing something that will make the life of a vulnerable animal 100x better.

Our friendly, welcoming and accepting community works hard to ensure each new volunteer is properly trained and educated for whichever job they receive.

Each of our volunteers receive extensive training and education to ensure they are properly equipped to deal with and care for every domestic animal. For our wild animals and medical responsibilities, we only hire volunteers with experience with these kinds of jobs to ensure the safety of both the volunteers and wild rescues.

Our volunteers are welcome to commit any time they have to working at our sanctuary whether its 30 minutes a week to 40 hours a week.

Responsibilities can include:

- Feeding the animals
- Giving medicine, therapies, etc
- Developing new ways to help care and treat rescues
- Spending time and playing with animals
- Going on rescue missions
- Returning to families/habitats
- Working with adoptions
- Guiding tours
- And much more!

New veterinarian graduate/veterinarian student?

Apply to become a volunteer intern where you will gain valuable training and experience working with all kinds of animals to help you advance in your career or receive school co-op hours.

Interested in Volunteering?

We want all volunteers to understand that these positions come with risks to both the volunteer and the animals. As we strive to make this a safe place for both volunteers and rescues we have strict requirements for volunteering at our sanctuary. These are non-negotiable and violation of these requirements can result in serious consequences for you and the animals. Please read the following carefully before applying.

Requirements:

- Must be 18 or older
- For all medical positions you must be currently in school or have a degree for Veterinarian:
 - Anesthesiology
 - Cardiology
 - Emergency and critical care
 - Dentistry
 - Dermatology
 - Internal medicine
